TRI-STAR 25 may be built in one of two models, a nonfolding version or a trailerable version. The nonfolding version has a 14" wider cabin. The folding version may fold or the ama's may be disconnected to give a 8' beam for trailering.

TRI-STAR 25 has 5'6" head room from galley to forward compartment and will sleep up to 5 adults. The "TRI-STAR" dinette" will seat four and still allow an open passageway forward to a fully enclosed head.

TRI-STAR 25 round bottom double diagonal stressed plywood construction makes possible fine hulls that provide the extra load carrying capability for comfortable family cruising.
